3 Column Ledger Accounts. The basic T account is a useful bookkeeping tool used to help visualize double entry bookkeeping journal entries. The debit entries are posted to the left hand side of the T account, and the credit entries are posted to the right hand side of the T account. The 3 column ledger account extends the T account by using an additional third column to show the running balance on the account after each debit or credit entry.

Taking care of your office finances and bookkeeping needs has never been as easy with accounting books, which can be used in place of software or alongside accounting software programs to help you balance company budgets and oversee expenses. Ruled lines and columns help keep your calculations neat and easy to read. Consider using check registers to record transactions made only in cash.
