Machine Tool Technology | TCAT Athens

Mathematics The goal of computational mathematics, put simply, is to find or develop algorithms that solve mathematical problems computationally (ie. using computers). In particular, we desire that any algorithm we develop fulfills four primary properties:

- Accuracy. An accurate algorithm is able to return a result that is nu-

INTRODUCTION TO COMPUTATIONAL MATHEMATICS

in program writing to write instructions to a computer in a manner understood by the computer to perform the task which the programmer wants the computer to do . In this process, the most basic computer language is obviously the most Low Level language and that is the machine language that uses binary code consisting of '1' and '0'.
