VACANCY: American Red Cross Consultant Baseline and End ...

The Red Cross categorizes every disaster—from apartment fires and winter storms to tornadoes and hurricanes—on a scale of 1 to 7, with 7 being the highest. Categorization is based on the budget required at the ground level and indicates both the complexity of the response and the resources required. 6 In the Central/Southern Illinois region, the RDT has seen nothing larger than Level 5.

Red Cross Business Practice Case Study | Deloitte Insights

This course is an interactive case study wherein the user directs the work-up. Abnormal pre-transfusion test results, including an ABO discrepancy and positive antibody screen require investigation. A discussion of ABO discrepancy resolution and literature bearing upon the cause of this particular discrepancy is reviewed.
