Discreet, hybrid residential panels with the power of Aritech behind them.The Aritech family of CS875/575/275/175 hybrid intrusion control panels is the result of extensive research and careful development. Programming them is the same, right across the family, whether it's for 8 or 168 zones.

**GE Security**  
Aritech panels can always be defaulted back to factory settings (which will mean 1278 works) but this of course means reprogramming all the zones again. This may not be a big job and of course will be cheaper than a call out. Each panel has a particular way to reset it and it involves removing the PCB mounted battery from the CMOS memory.
