Like other book by Serge Lang this book is also very good for clearing doubts about misconceptions in fundamental concepts of mathematics. He has written over 100 books for all levels from high school level to PG level. He is a good mathematics educator. Language and presentation of this book is very good I have a soft copy this lovely book, If Springer could provide Indian edition of this book I would like to have this wonder book in hard copy form.

### **Basic Mathematics: Amazon.co.uk: Lang, Serge ...**

Serge Lang has written one of the better books out there for learning high-school level math well. The explanations are clear and the problems are graded from easy to hard well. It covers everything you would need to know to start higher-level math studies. Some of the problems are really hard and require a good deal of thought to solve.

### **Amazon.com: Customer reviews: Basic Mathematics**

Is anyone aware of a compiled list of solutions to Serge Lang's Basic Mathematics? I've scoured Google, to no avail. Of course, many of the questions can be checked using tools like Wolfram. Nevertheless, curious to see if such a list might exist. If you're curious, here is a link to the textbook. It's excellent! 0
