While modern books are born digital, books old enough to be in the public domain may never have seen a computer. Google has been scanning books from public libraries and other sources for several years. That means you've got access to an entire library of classic literature that you can read on the computer or on a variety of

2 / Buckland's  
Complete Book of  
Witchcraft was born  
when one of the  
cavemen threw on a  
skin and antlered mask  
and played the part of  
the Hunting God,  
directing the attack.  
There are, still in  
existence, cave  
paintings of such  
rituals, together with  
the spear-stabbed clay  
models of bison and  
bear.
