Competency mapping studies have been conducted in various corporate sectors mainly in the tourism, medical and the hospitality industry. These studies have indicated a spurt in the use of competency mapping models in the corporates and its benefits for the employees in general and the organization at large.

Importance and Usage of Competency Mapping for Corporates

NOTE: The order in which the topics and cases are read and discussed should be based upon the skill level of the reader. Learners who are unfamiliar with competencies will want to do the reading in the listed order. While more advanced learners might want to jump straight into the case study and use the other competency readings as needed.
