# Read PDF For Ear Training And Sight Singing

As a process, ear training is in essence the inverse of sight-reading, the latter being analogous to reading a written text aloud without prior opportunity to review the material. Ear training is typically a component of formal musical training and is a fundamental, essential skill required in music schools

## **Ear training - Wikipedia**

Sight-singing and ear training go hand in hand. In order to vocalize the notes you read at the correct pitch, it is necessary to make use of what is called Inner Hearing (in the Kodàly tradition) or Audiation. Mastering your inner hearing skills means that you are able to picture how notes sound without actually hearing them.
