### Diesel Engine MaxxForce DT Fuel Injection Codes

This is a 2010 MaxxForce DT engine with a fuel injection code. It's telling us that there's a problem with the injectors not firing on all cylinders. There are a few possibilities including the high pressure oil pump not delivering enough pressure or a bleed down at the injectors or oil manifold. The harness to the electronic fuel injectors could be at fault with possible continuity issues or ...

### MaxxForce DT Fuel Injection Code Repair | Mechanics Hub

This running test for injection control pressure (ICP) is a good test to run since these specs determine the fuel injection operation. This is the DT MaxxForce which requires 870 psi of ICP to run while the maximum can go as high as 4500 psi. These high pressures create problems if there is a leak in the high pressure manifold or anything else related in the system.

### 2010 MAXXFORCE 7 FOR TECHNICIANS

Have another Maxxforce DT in the shop, unit has no power and no codes, road testing and looking at data seeing high EBP and low boost, all other engine operation checks seem good. icp, ipr, fuel pressure etc and runs smooth and sounds good, just put accelerator to floor and it doesn't build power just rolls along gutless and eventually gets to like 35mph tops

### Maxxforce DT no power no codes - MHH AUTO - Page 1

This Maxxforce 7 diesel engine gave us a bit of a challenge with intermittent engine shutdowns. The engine code 3055 (high pressure fuel pump related) led us to a solution in the way of a TSB (technical service bulletin). Apparently the wiring harness to the high pressure oil pump was causing a lot of headaches causing an unexpected engine shutdown. This is the worst fear for any driver and ...
