Konica Autoreflex t user manual, instruction manual

The Autoreflex T2 - in Japan sold as New FTA - was introduced to the market in 1970 as successor of the Autoreflex T (called FTA in Japan). The changes over the predecessor are not too many, probably for this reason the Autoreflex T2 / New FTA continued to be marked as Autoreflex T or FTA, respectively. Therefore, both models quite often get confused and many Autoreflex T2 / New FTA are ...

KONICA AUTOREFLEX TC MANUAL PDF

The Autoreflex T2 / New FTA is available in chrome-black and black only, the chrome-black version is much more common. The Autoreflex T came with one of Konica's legendary Hexanon prime lenses. The optical quality of most Hexanon lenses is regarded as truly superb, particularly the older fixed-focal length (prime) lenses, like this 52mm f/1.8.

Camera History - Konica Autoreflex T2 • Streets of Nuremberg

The Autoreflex T is the camera that planted Konica firmly on the SLR map. Solid, dependable, refined, with full manual or EE auto exposure. Legendary Hexanon lens. They had several previous designs but the Autoreflex T was their big hit and can still be found in usage today.

Konica Autoreflex T - Matt's Classic Cameras

The Autoreflex T. In the late '60s, the Japanese camera makers came forward with a flurry of compact SLR cameras, almost indistinguishable to the layman's eye. Konica contribution to the lot was the Autoreflex T, a solid camera both in functions and weight. A step-up of the Autoreflex, the T proudly stood in the first line of this class.

Konica Autoreflex T - Camera Collector Pages

Konica Autoreflex T2 35mm slr front view with lens removed showing konica bayonet mount The Autoreflex camera range was one of the first to offer auto exposure, although by the time this model was produced by the early 1970s other manufacturers had caught up and it was a common feature.

Autoreflex T3N (1974-1977) - The Konica AR System

It's surprisingly not widely known that Konica was the first to offer autoexposure in a 35mm SLR, and that they did it in 1966 with the original Auto-Reflex. Konica chose a shutter-priority system: the camera selects an aperture based on the shutter speed you set. The Autoreflex T3 carried on the tradition when it was introduced in 1973.

Konica Minolta Autoreflex-T3 Manuals

The Konica Autoreflex T3 featured a full information viewfinder, showing aperture and shutter speed, had a DoF preview lever integrated with the self-timer, a short travel shutter release (the one on the T and T2 had fairly long travel) with a meter switch/shutter lock surrounding it, an indicator to show if the shutter is cocked via a small ...

Konica Autoreflex T3 Review - By Bob Janes - 35mmc

Konica's Autoreflex T3 descended from their original Autoreflex single lens reflex which had the novel (and probably unique) feature of being able to switch from the full 35mm format to half frame at will mid-roll. Although the T3 does not share this ability, it's still a solid, well made 35mm SLR t
