In the July 2010 issue of Astronomy Now we featured My life with the Woodstock, by Sir Patrick Moore himself, who estimates that including different editions and reprints in all languages, he probably has over one thousand books to his name. We'd like to create the ultimate Patrick Moore bibliography and need YOUR help in listing every single book that Sir Patrick has written, including all the different editions (including foreign language editions), astronomy ...

Patrick Moore's books - Astronomy Now

Dr. Moore is a credible reporter of how the public has been misled by political factions regarding climate change and other issues such as fish farming. He explains scientific principles and data in a way that most people can understand. He appears not to have a personal axe to grind but stands as a singular source of sound thinking.
