About the Book:Barring the guts and glory accounts of British imperial historians, the military history of South Asia has rarely attracted the serious attention of scholars. This volume attempts to fill this gap by tracing the impressive developments that occurred in South Asia-often in close interaction with the outside world-in military organization, tactics, and technology.

Warfare and Weaponry in South Asia 1000-1800

Traditional weapons – spear, bow and war-club The traditional arms and equipment of the tropical kingdoms of West, Central and South-Central Africa consisted of the standard cutting, thrusting and smashing weapons. Spears were less strong than those evolved later in southern Africa under the Zulu, and doubled as throwing and thrusting implements.
